作品靈感來源於摩理臣山道遊樂場疫情前後的變化，當中的聲音分為兩種層次，第一種是預先錄製和處理的環境聲，第二種聲音是因喇叭震動而產生，或因互動裝置產生的。利用即時和預錄聲音互相影響的關係，讓觀眾感受遊樂場的變化。

The inspiration for the work comes from the changes in the Morrison Hill Road Playground before and after the epidemic. The sounds in the installation are divided into two layers. The first is pre-recorded and processed environmental sounds, while the second is generated by the vibration of the speakers and the interactive devices. The aim is to utilize the relationship of sounds between real-time and pre-recorded, to allow the audience to experience the changing sonic dimension of the playground.
